

An aerial photograph of a city, likely Los Angeles, showing a major highway (the 10 Freeway) running through the center. The city is densely packed with buildings. Overlaid on the image are several 3D architectural models of different building types, including single-story houses, multi-story apartment buildings, and commercial structures. Some of these models are placed along the highway, while others are scattered throughout the city. The top of the image is faded and shows a grid of streets with labels like 'S Bentley Ave', 'Tilden Ave', 'Regent St', and 'Military Ave'.

SPATIAL JUSTICE: Rethinking the Architecture of Social Housing

Yang Yang for cityLab-UCLA

Dana Cuff

Director of cityLAB and
Professor of Architecture and
Urban Design, UCLA

The David Heath Lectures in Modern + Contemporary Art
