## EDUCATION

Ph.D. Columbia University, Department of Anthropology, Conrad Arensberg, advisor 1969-75  
B.A. Grinnell College, Anthropology 1965-69

## PROFESSIONAL EXPERIENCE

Emory University, Atlanta, Georgia  
Goodrich C. White Professor Emerita of Anthropology 2020-  
Goodrich C. White Professor of Anthropology 2007-2020  
Faculty Liaison to the Office of Sustainability Initiatives 2006-2019  
Chair, Department of Anthropology 1991-1994  
Professor of Anthropology 1989-2007  
Associate Professor of Anthropology 1982-1989  
Assistant Professor of Anthropology 1976-1982

Carleton College, Northfield, Minnesota, Assistant Professor of Anthropology 1974-1976  
Queens College, City University of New York, Lecturer in Anthropology 1972 Summer  
Columbia University, New York City, Research Assistant, Department of Anthropology 1970-72

## FIELD WORK EXPERIENCE

1968 Costa Rica, Guanacaste Province (open peasant community). Undergraduate field research on economic decision-making of peasant farmers (three months).

1970 Ecuador, Otavalo Valley (Quichua indigenous community). Research on community change as affected by new technology in weaving, population growth, international markets, ritual and reciprocity, and resistance to outside influences (three months).

1972-1973 Costa Rica, Puriscal Canton (open peasant community). Research on the structure of peasant decision-making in response to changing agricultural technology (the Green Revolution in Costa Rica). Population growth, ecological disruption, and external economic forces created changes in land tenure, agricultural methods, and social structure (one year).

1977 Costa Rica, Puriscal Canton, and Ecuador, Otavalo Valley. Follow-up research from previous fieldwork. In Costa Rica, directed student research team on 1) further study of agricultural land use decision-making; and 2) comparative data on "nervios," a folk category of disease. In Ecuador, research on the economic exchanges and social structural patterns of the San Juan fiesta (3 months).

1980 Costa Rica, consultant and fieldwork with USAID advisory team to reformulate policy and programs on rural poverty (one month).

1982-1983 Rural Georgia. Adaptive Strategies of Georgia farmers in the face of extended drought and the "cost-price squeeze." Comparative advantages of different resource combinations for different kinds of farmers and the effect on rural stratification, technological change, farming as a lifestyle, gender roles, and the ecological effects of current farming methods (18 months).

1987-89 Rural Georgia. Determinants of Farm Survival in Georgia. Continued research in Dodge County, to determine long-term family strategies, goals, and resource endowments, and their relation to farm survival in the national farm crisis (5 months).

### **SUBSEQUENT PROFESSIONAL PROJECTS:**

Primary focus from 1999 to 2019 was building momentum for cultural change at Emory toward sustainability. Served as half-time Faculty Liaison to the Office of Sustainability Initiatives from 2006-2019. Projects included curriculum development to infuse sustainability across the curriculum (the Piedmont Project programs for faculty and graduate students, [www.piedmont.emory.edu](http://www.piedmont.emory.edu)), co-chair of the university-wide Sustainable Food Committee which recommended policy for Emory's Sustainable Food Initiative in collaboration with Emory Dining and Emory University Hospitals. The food committee also oversees the Educational Garden Project and Emory Farmers Market and coordinates with the Oxford College Organic Farm (see [www.sustainability.emory.edu/food](http://www.sustainability.emory.edu/food); <https://youtu.be/g03AfrO5hE>.) Led development of the "Emory as Place" orientation and video for all new graduate students, faculty, and newly-hired staff. Co-chair of Sustainability Faculty Council, Climate Action Plan Committee, and Sustainability Strategic Plan Visioning Committees in 2005 and 2014-6. Duties included orientation activities for new students, fund-raising and grant-related activities, expansion of community-engaged learning for sustainability, and coordination with the executive committee of the Sustainability Minor.

Past efforts included building momentum at Emory as convener of the Ad Hoc Committee on Environmental Stewardship; co-convener of the Faculty Green Lunch Group; and organizer of campus-wide environmental stewardship workshop in 2000, development of the campus environmental walking tour brochure, Environmental Mission Statement adoption, Emory College Energy Conservation Project, Campus Heritage and Stewardship signage project, woods walk series, and the Baker Woodland invasives removal projects. Chaired the search for Director of Sustainability Initiatives, served on Dining Contract advisory committee, and served as consultant to and faculty for the Sustainability Leadership Certificate Program offered by Emory Continuing Education.

In the Atlanta region, began in 2004-5 to foster the development of the Atlanta Local Food Initiative (ALFI), whose vision is a transformed food system in which every Atlantan has access to safe, nutritious, and affordable food grown by a thriving regional network of sustainable farms and gardens. ALFI partners include farmers, community gardeners, farmers markets, institutional buyers, food access advocates, environmentalists, academics, health advocates, and governmental representatives ([www.atlantafood.org](http://www.atlantafood.org)). ALFI is now folded into the efforts of the Atlanta Regional Commission and the Food Well Alliance.

With the Association for the Advancement of Sustainability in Higher Education (AASHE), offered annual workshops for faculty leaders on Sustainability across the Curriculum: The Piedmont and Ponderosa Models (with Geoffrey W. Chase). Over 600 faculty leaders from over 300 institutions in the U.S., Canada, and foreign countries have participated to date.

Sustainability-related research included multiple assessments of the impact of the Piedmont Project on faculty teaching, research, and personal behavior. Interviews with faculty, civic leaders, community activists, and local food system innovators around the country about sustainability leadership histories, environmental issues, engagement with place, campus sustainable food initiatives, and changing daily practices. Convened conversations among campus food project coordinators in diverse regions to explore common metrics. Explored the diverse languages and temperaments of engagement in sustainability efforts and the role of local sustainability strategies to support civic resilience, contemplative practices, and personal restoration.
