

Sixth Annual Department of Medicine Research Day

October 17, 2013 ♦ Cox Hall Ballroom

Please join us for the sixth annual Department of Medicine Research Day to celebrate our research efforts across the department. This event will bring together researchers from all divisions and will provide an opportunity to share exciting new findings, facilitate scientific exchange, and identify potential new collaborations. All members of the department, including post-doctoral fellows and students, are encouraged to participate.

Keynote Presentation

“What is the origin of our immune system? (And why should we care?)”

Max D. Cooper, MD

Professor, Pathology & Laboratory Medicine, Emory University School of Medicine
Georgia Alliance Research Eminent Scholar
Member, Emory Vaccine Center

*** Featured Research:** These presentations will feature Department of Medicine Faculty Award winners as well as junior and senior faculty who have made important contributions this past year.

ALL ATTENDEES MUST RSVP

Abstracts are due by August 23, 2013 at 5:00 PM

For more information and to RSVP, please visit:
